

HAND-SKETCH DESIGN CHALLENGE

ONE POINT PERSPECTIVE – 3D

Ever wondered how to draw spaces in 3D? In this challenge you will be tasked to draw your room in One Point Perspective.

1. WATCH THE VIDEO

Watch the tutorial video on how to draw a One Point Perspective. <https://youtu.be/qOojGBEsWQw>

REMEMBER THESE IMPORTANT ELEMENTS!

- Horizon Line
- Vanishing Point

2. SKETCH YOUR SPACE!

A. PRACTICE!

- Sketch out the same elements on paper.
- Replicate the same room for practice.

B. SKETCH YOUR SPACE!

- Using the same methods recreate your room in one point perspective.
- TIP: to help draw lines/objects from the vanishing point, put a pin at the point and tie a string to the pin. Pull the string in any direction to locate important lines. Use the string as a guide to draw your lines.
- If you need more of a challenge. Move on to sketching your room/house in [Two Point Perspective](#).

3. SHARE YOUR SKETCH

Post sketches online on your favorite social platform!
