

# ACE MENTOR PROGRAM

ARCHITECTURE • CONSTRUCTION • ENGINEERING

## ACE @ Your Pace Student Info Sheet

ACE @ Your Pace was created to provide a way for students who still want to be a part of ACE but are too far away from an ACE Affiliate to participate. During the height of COVID we created an excellent webinar series and ACE @ Your Pace will provide extra guidance to ensure you're getting everything you can out of those videos. We know that in-person ACE allows students to work together and we hope that in the future we will be able to add an element of that into our online platform.

### Who Can Participate:

Any High School student who is not enrolled in an ACE program for the 2022-2023 year.

### Benefits:

Students who complete ACE @ Your Pace will be:

Eligible to sign up/ participate in ACE Summer Experiences (Camps/Internship/Externships)

Access our National Scholarship List

Ability to build community with ACE students across the nation

### 2023 Overview

1. Students can sign up for the virtual program between Dec. 2022 and Jan 15, 2023. The registration link is [here](#).
2. Once registered, students will receive a confirmation email outlining the program and must sign and return a Student Agreement Form.
3. The program will run from Jan – Mid May ending with a virtual showcase.

### Procedures

1. Students will work at their own pace to complete the task emailed to them at the beginning of each month. Each task will have an "exit ticket" that will be reviewed by an ACE Mentor who will provide feedback to ensure mastery. Each month students will work on a portion of their final project, which will also be reviewed by an ACE Mentor.
2. Students can submit questions through a form that will be linked in the welcome email. Questions will be answered in 36 hours of submission.
3. Before the Showcase, students will have the option to present their presentation live or schedule ahead of time to pre-record.
